Accommodations & Layout:

Interior wall panels are done in Vietnamese mahogany and the floors are Vietnamese oak with mahogany inlay. There is one fore-guest cabin with 1 double bed and 1 single bed, wardrobes and numerous lockers. A washroom is located starboard side with electric WC, shower and washbasin. An additional guest cabin is located starboard side with two bunk beds, bureau, wardrobe and storage compartments. The spacious master is found port side and features a double bed, desk, dressing table, wardrobe and numerous storage compartments. The master has its own private bath with electric WC, washbasin and bathtub. The dining room features a wide bench, table, and seating on portside. The salon has a bar located starboard equipped with fridge/freezer and also includes TV/video equipment. A crew cabin is found behind the bar with 1 double bed and 1 single bunk bed with attached head which includes an electric WC shower and washbasin. The galley is located aft of the dining area and is fitted with a stainless steel fridge/freezer unit, washer/dryer, and oven.

Electronics & Navigation Equipment:

- (1) Furuno FMD 811 radar
- (1) Furuno GP 50 GPS
- (1) transmitter/receiver SSB Furuno 1501
- (1) video depth sounder Furuno F CV667
- (1) Comnav 2001 S automatic pilot with remote control
- (1) fluxgate compass KVH100
- (1) fluxgate compass Sunto
- (2) Toshiba laptop PC's Chartview Pro Nautical Software
- (1) Furuno 1831 MK2 radar
- (1) Furuno MK30 DGPS
- (1) Autohelm ST50 navigation platform-depth sounder, log/speedometer, wind vane/anemometer with repeaters
- (1) Furuno FM2510 VHF
- (1) Weather Facsimile receiver Furuno 207
- (1) satellite communication system Inmarsat Saturn MM
- ♦ (1) magnetic compass Daiko
- ♦ (1) Canon 10 fax/printer/scanner
- ♦ (1) spare NEC flat screen

Miscellaneous Mechanical & Electrical Equipment:

- ♦ Bauer 380 Volt Diving compressor with 4 bottle air bank, for surface demand diving & fast tank filling.
- ♦ Side power 285 TC Bowthruster, 20 hp double propeller (5 tons thrust)
- ♦ Center board actuator dia. 140 mm with 600 mm stroke with 24 volt Hydraulic power pack
- Lewmar Electrical Windlass 3000 watts 24 volt
- Ice cube maker (20kg per day)
- (2) Marinair Reversible air-conditioning units
- (1) 1200 liter/day technomar water maker
- (2) 220 Volt 60 liters Water heater

Electrical System:

- (2) shaft alternators 24V 60 amps
- (1) ONAN 17 kw generator (new 300 hrs)
- (1) 380/24V transformer (4.5kw)
- (2) 24V/75amps Mastervolt battery Chrg.
- Two bank of 24 volts DC batteries, about 460 amp-hours each, for ship service,
- One bank of 24 volts DC battery for electronics of about 460 amp-hours
- 24 volts DC and 240 volts AC light fixtures
- 24 volts DC and 240 volts AC outlets
- (1) ONAN 6kw generator (2600 hrs)
- (1) 3.5 kw Mastervolt inverter (24V/220V)
- AC and DC electrical switchboards
- Electric control panel and distribution panels, c/w breakers, voltmeter, ammeter
- Mastervolt battery monitoring system

Rigging and Sails:

- ♦ Norseman Mainmast and mizzenmast with built-in PROFURL electric furlers for mainsail and Fisherman
- ♦ DOYLE Sailmaker
- (2) E FURL electric furlers for the genoa and the main stay sail
- (2) PROFURL manual furlers for the staysails (storm sail)
